SUMMARY

Final-year CSE student with practical experience in Java, Spring Boot, REST APIs, and MySQL. I have a solid grasp of backend development, databases, and the software development life cycle. I am experienced in creating real-world projects, working in teams, and quickly picking up new technologies.

WORK EXPERIENCE

Full Stack Developer & Tutor Intern, @BucketStudy : Jun 2025 - Dec 2025

- **Payroll Management System (PMS)**
Tech Stacks: Spring Boot, React.js, MySQL, JWT, REST API
 - Designed secure backend architecture with RBAC for ADMIN and USER roles.
 - Developed REST APIs to manage Daily Attendance(Check-In/Check-Out) and implement the Salary Calculation Engine logic.
 - Secured all API routes using Spring Security and JWTtokens to manage stateless authentication and authorization.
 - Collaborated with the frontend team to integrate the React UI with the backend, supporting the Employee Portal and Admin Analytics Dashboard functionalities
- **Social Media Engagement Dashboard**
Tech Stacks: Spring Boot, MySQL, REST API, JWT
 - Built backend APIs for analytics and user authentication.
 - Integrated MySQL database with JPA for engagement data.
 - Worked with the frontend team to support real-time dashboard insights.
 - Built a real-time social media analytics dashboard enabling data-driven engagement insights across multiple platforms.

SKILLS

- **LANGUAGE:** Java, Python, JavaScript (Basic)
- **DATABASE:** MySQL, MongoDB, Postgresql
- **FRAMEWORK:** Spring Boot, FASTAPI(CRUD), Spring Data JPA, Spring Security, Hibernate, Swagger
- **TOOLS:** VS Code, IntelliJ, Eclipse, Postman, N8N (Workflow Automation & AI Agent Integration)
- **BUILD & DEPENDENCY MANAGEMENT TOOL:** Maven
- **Soft Skills:** Communication, Teamwork, Problem-Solving, Leadership, Adaptability, Quick Learner
- **Human Languages:** English (Fluent) | Hindi (native)

EDUCATION

BE Computer Science Engineering (7.9 CGPA) : 2022 - 2026

Gnanamani College of Technology, Namakkal Tamilnadu.

12th - 71.2% : 2021 - 2022

Acharya Narendra Deo College, Shahpur Patory, Samastipur

10th - 81.4% : 2019 - 2020

UMS Purushottampur Indrawar Morwa, Samastipur

PROJECTS

- **Bookstore Management System – REST API Development**
Java | Spring Boot | MySQL | JWT | Swagger | RESTful APIs
 - Developed a RESTful backend using Spring Boot for managing books, users, and orders.
 - Implemented JWT-based authentication and role-based access using Spring Security.
 - Designed CRUD APIs for book inventory, user registration, and order processing.
 - Integrated MySQL database for data persistence with pagination and search features.
 - Documented APIs using Swagger and tested endpoints with Postman and JUnit.

- **Full-Stack Quiz Application**

Spring Boot | MySQL | HTML | CSS | JavaScript

- Developed a web-based quiz platform with dynamic questions and instant result evaluation.
- Built RESTful APIs using Spring Boot for managing questions and results.
- Integrated MySQL for secure data storage and retrieval.
- Designed an interactive frontend using HTML, CSS, and JavaScript for smooth quiz participation.
- Implemented a modular architecture with Controller, Service, and Repository layers.

- **AI-Powered Restaurant Order Chatbot**

n8n | Telegram Bot API | Google Gemini AI | Google Sheets

- Developed an AI-powered restaurant chatbot on Telegram using n8n workflow automation.
- Integrated Google Gemini AI to handle customer queries and give intelligent menu suggestions.
- Connected and managed Google Sheets to store menu items, FAQs, and customer order data.
- Automated the order process, reducing manual effort and improving customer response efficiency.

Certificates & Achievements

- **Spark 2.0** – Job Ready Java Full Stack (Code for Success), mentored by Ashwani Kumar.
- **Outstanding Prize (2024–2025)**: Received Certificate of Excellence and “Wings of Fire” book for overall college performance.
- **Paper Presentations**: Won three national-level paper presentations across different college symposiums.
- **Hackathon Participation**: Participated in a 36-hour continuous hackathon (AIM-25) organized by InFynd.
- **Student Lead Coordinator for Sparkathon Hackathon** – led the complete event workflow from planning to execution and managed participant & volunteer teams effectively.
